P: 630.400.6975

Knowledgeable and enthusiastic programmer seeking to contribute acquired skills in a Developer role

Passionate about learning

Strong team building skills

Hard working and driven

Eager to work within an agile environment

Excellent in problem solving

Skillful communication and presentation capabilities

Technical Skills

Ruby	Instagram API	HTML/CSS
Ruby on Rails	Google APIs (Map, Hangout)	Twitter Bootstrap
Sinatra	Javascript	Foundation
TDD (RSpec + Capybara)	jQuery	RADAR
Active Record	Ajax	Web sockets (faye-websocket)
SQL	Object-oriented programming	Heroku
Node.js	Version Control (Git + Github + GitLab)	Jasmine

Experience

Apple (MindSource, Inc.)

2014-Present

Software and QA Engineer

- Tested websites, browser agnostic, to ensure successful content behavior
- Tested and approved tools used within the QA department
- Utilized command line and various open source tools to discover bugs in codebase
- Developed runbooks for test plans and test suites
- Created various technical documentation and reports
- Developed reporting communication strategy
- Developed Policies and Procedures for Apple's new Marcom QA division
- Reviewed fellow developer codebases to discover potential vulnerabilities
- Adaptable to various code languages
- Created scripts to automate and to build efficiencies in manual processes
- Collaborated within a team of developers to create Mission-Control-DBC

Dev Bootcamp

2014-2014

Phase 0 Guide

- Mentorship as well as tutoring position for newer web developers
- Provided actionable feedback and 1:1 tutoring
- During personal training at DBC I developed Mission-Control-DBC, a Rails web application for the DBC community to aid in proficiency via a custom chat application, Google hangouts, notifications, and image upload.

Federal Home Loan Bank of Chicago

2009-2010

End-User Support

- Provided technical support for other bank divisions within the organization's infrastructure
- On-boarding newer employees and setting up system access
- Assisted users with software and hardware issues that interrupted efficient business flow, from an infrastructure stand point

Education

Dev. Boot Camp, San Francisco, CA

2014-2014

Focus: All facets of web development

Harper College, Schaumburg, IL

2012-2013

Focus: Computer Science

DeVry University, Addison, IL

2007-2008

Focus: Network Communication Management
